## CONTROL INTERFACE

More functions are available on an easy-to-use toolbar located within the remote view window.

## WHAT PEOPLE ARE SAYING

“Using the CV211, you can determine the status of the host within five minutes. This not only shortens working hours but also greatly increases our overall effectiveness.”

– Mr. Lin, Server Maintenance IT Engineer

“Using the CV211, one of our branch assistants can connect to the server so we can troubleshoot remotely from the Taipei office, meaning no one has to take a special trip. This saves us time, manpower and costs.”

– Mr. Wang, MIS, Large Corporation

## Features

- **USB Console Adapter Provides Direct Laptop-to-Computer Desktop Access**
  - Transforms your laptop into an ultra mobile console for servers, computers, kiosks and ATMs
  - Virtual media enables file applications, OS patching, diagnostic testing and software installation
  - Upgradable firmware to keep unit up to date
  - Eliminates the need for heavy and bulky crash carts
  - Desktop scaling – user can adjust the size/resolution of the Remote desktop window by size or ratio
  - Supports Windows, Linux, and Mac laptops\*
  - No operating system limitations on servers/computers connected to the [CV211](#)
    - \* Mac laptops are supported by [CV211](#) firmware v1.0.076 or higher; macOS are only supported by [CV211](#) with macOS 10.15.7 or earlier
- **Server and Computer Troubleshooting**
  - Instant BIOS-level access gets you total control of a server during hardware and operating system failures
  - Bi-directional file transfers between the laptop and target computer
  - Video recording and image capture feature saves a record of remote operations for future training and troubleshooting
  - Mouse DynaSync™ – automatically synchronizes the laptop and target computer's mouse movements
  - On-screen keyboard with multi-language support
  - Supports hotkey macros – define keystrokes that execute specific actions on the target computer to complete tasks efficiently and accurately
- **Ease of Use**
  - Plug-and-Play – no software installation required on either side
  - Toolbar helps users easily operate all the functions from a single-click control panel within the remote view window
  - Adjustable video settings for optimal picture and performance
  - USB bus-powered design with hot-plugging support
- **Maximum Convenience**
  - Built-in VGA and USB keyboard/mouse cables
  - Unique cable clip design to get cables under control
  - Supports analogue video resolutions up to 1920 x 1200 @ 60 Hz
  - Compact and easy to carry – half-palm size

Diagram

## Local Usage

Connect CV211 directly to the target server/system from your laptop and troubleshoot with ease.

## Remote usage

Connect CV211 to the target server from your laptop to collaborate with remote colleagues, or allow troubleshooting by remote engineers via remote access software.
