

CLCS1308MUKIT

8-Port USB KVM Bundle with 17in. LCD Console & 8-USB Cables

This Sku combines following items:

- [CL1000M](#): 17" LCD Console
- [CS1308](#) 8-port USB/PS2 Combo KVM Switch
- [22L5201U](#) 4 ft. USB KVM Cable
- 4- [2L5202U](#) 6 ft. USB KVM Cable
- 2-[2L5203U](#) 10 ft. USB KVM Cable

[CL1000M](#)

ATEN's new economy LCD KVM console, [CL1000M](#), offers a space-saving, streamlined approach to IT environments by integrating a keyboard, 17" LCD monitor, and touchpad in a 1U Slideaway™ housing. The LCD display is built into the cover; the keyboard and touchpad are built into the base. Setup is fast and easy. There is no software to configure, no installation routines, and no incompatibility problems. Slide the console module section out; flip the cover up; and you are ready to go to work. When finished, flip the cover down and slide the console module away back into the rack. For added versatility the [CL1000M](#) comes with a USB and PS/2 cable to simplify connecting to your KVM.

There is no better way to save time and money than with a [CL1000M](#) installation. By using the [CL1000M](#) to manage your installation, you:

- Save all the space those standard components, keyboard, mouse, and monitor, would take up
- Eliminate the expense of having to purchase a separate keyboard, monitor, and mouse for each computer if attaching to a KVM switch
- Take advantage of upgrading your current system, since [CL1000M](#) is compatible with all types of KVM switches
- Save time for installation. Just connect the cable between [CL1000M](#) and a KVM or a computer, and the CL 1000M is ready to serve you.

[CS1308](#)

ATEN's [CS1308](#), 8-port PS2/USB Combo KVM Switch, is an ideal tool for a small office or home office where up to 8 servers and can easily be maintained by one administrator using a single mouse keyboard and monitor. The [CS1308](#) requires no special knowledge to setup or use, there is no software to install, it works with either PS/2 or USB servers, and will connect to any combination of PS/2 or USB mouse and keyboard.

Some of the unique features of the [CS1308](#) are

- DynaSync – Today's equipment uses Extended Display Data to automatically set the optimal video parameters of your monitor. ATEN's DynaSync ensures this information is available to each server in the installation so you don't have to readjust the video on each server you switch

to

- Auto sensing Expansion – As you add or remove KVMs to your installation the [CS1308](#) automatically senses the change and reconfigures the installation, there are no Dip switches to remember to change, no configuration routines to run, and no software to install
- Expandability , add additional KVMs to control up to 64 servers

ATEN has been selling KVMs for thirty years, to ensure consistency and quality we engineer and manufacture our KVMs in house, making us, on a global scale, the top

true KVM company in the world. Local sales Engineers, or a member of our Technical Support staff will be happy to

offer free assistance with pre-sales, installation, or operational questions. All ATEN products come with a limited three year warranty.

Features

- 17in. LCD Console
- A single console controls up to 8 computers
- Dual Interface – supports computers and console with PS/2 or USB keyboards and mice
- Multiplatform support – Windows 2000/XP/Vista, Linux, Mac, and Sun
- Display Emulation Technology – stores the console monitor's EDID (Extended Display Identification Data) to optimize display resolution
- Auto PS/2 and USB interface detection
- USB / PS/2 keyboard and mouse emulation – computers boot even when the console focus is elsewhere
- Video resolution up to 2048 x 1536; DDC2B
- No software required – convenient computer selection via front panel pushbuttons, hotkeys and multilingual on-screen display (OSD) menus
- Auto-senses station's position on daisy-chained installations; no need for manual dip switch setting; front panel led indicates station's position
- Port names automatically reconfigured when station sequence is changed
- Two level password security; only authorized users view and control computers; up to four users and an administrator with separate profiles for each
- Auto Scan feature for monitoring user-selected computers
- Broadcast mode; operations simultaneously performed on all selected computers
- Hot pluggable – add or remove computers without having to power down the switch
- Buzzer on/off via hotkey and OSD
- Firmware upgrades to all the chained KVM switches at the same time via the daisy-chain cable
- Rack mountable in 19" system rack (1U)
